## **10. PLAGIARISM**

---

### **10.1 Definition**

Plagiarism involves using the work of another and presenting it as one's own, whether published or unpublished. Any of the following acts constitutes plagiarism:

- (i) presenting the work of another or part of it as one's own, whether published or unpublished. This includes material available on the internet and in any other electronic form;
- (ii) directly reproducing from a source without proper citation;
- (iii) paraphrasing or summarising another's work without acknowledging the source;
- (iv) using facts, figures, graphs, charts or information without acknowledging the source;
- (v) using whole or part of any document, graphics, artwork or any other material from the internet and presenting it in any material form as one's own, with or without any modification, without acknowledgement;
- (vi) any infringement to the Copyright Act (1997) that violates the moral rights of an author as defined at (v), specifically the author's entitlement to the right of paternity.

### **10.2 Procedures for Dealing with Plagiarism in MPhil/PhD Research Projects**

1. Plagiarism may be detected
  - prior to submission of the thesis or MPhil Transfer Report,
  - during the examination process, in which case the latter should be suspended.
  - after the award of the degree
2. In all cases, the alleged plagiarism shall be reported to the Dean of the Faculty concerned. The report should contain detailed evidence of the suspected plagiarism (indicating by cross-referencing what sections of texts have been plagiarised and from what sources).
3. On receipt of the report, the Dean shall convene a meeting of the Faculty Research Committee (FRC) which will appoint a Sub-Committee on Plagiarism to investigate the alleged case of plagiarism. The FRC Sub-Committee on Plagiarism will interview both the student against whom the allegation of plagiarism has been made and the Supervisor(s).
4. If the alleged plagiarism is not proved, the FRC Sub-Committee on Plagiarism will report to the FRC. The latter will inform the Faculty Board, following which the student will be informed accordingly by the Faculty Administrative Assistant on behalf of the Registrar, through the Supervisor with copy to the Pro Vice-Chancellor (R & C) and to the Head of Department concerned.

5. If the alleged plagiarism is found to be **incidental**, in the sense that the student has failed to cite the references or make the appropriate acknowledgements in one or two isolated and insignificant cases, the FRC Sub-Committee on Plagiarism will communicate its findings in its report to the FRC. The latter will report to the Faculty Board and recommend that a note of warning be issued to the student by the Faculty Administrative Assistant on behalf of the Registrar, through the Supervisor, with copy to the Pro Vice-Chancellor (R&C) and the Head of Department. The student will be asked to make the necessary revision and re-draft the relevant section(s) to the satisfaction of the Supervisor(s).
6. If the alleged plagiarism is found to be **substantive**, in the sense that the extent and proportion of the work that has been plagiarized, affects the originality and authorship of the thesis or MPhil Transfer Report, and also reveals a deliberate intent on the part of the student, the FRC Sub-Committee on Plagiarism will submit a detailed report to the FRC with a recommendation that the case be immediately referred to the Registrar for disciplinary procedures to be initiated, and that the Faculty Board be informed accordingly.
7. On receipt of the report and recommendation from the FRC, the Registrar will convene the Discipline Committee as per the University Rules and Regulations.
8. If the student is found guilty of substantive plagiarism, the Discipline Committee will in its report to Senate indicate whether:
  - The student should be failed and his registration terminated.
  - The MPhil thesis / MPhil Transfer Report / PhD thesis should be referred back to the student for significant revision and for resubmission.
  - In the case of a PhD thesis, it should be referred back to the student for significant revision and re-submission for a lower degree.

### **10.3 FRC Sub-Committee on Plagiarism**

The FRC Sub-Committee on Plagiarism is an adhoc sub-committee appointed by FRC to look into cases of alleged plagiarism, and it will report to the FRC.

#### **10.3.1 Membership of the FRC Sub-Committee on Plagiarism**

- (i) A senior member of FRC (Chair) appointed by FRC
- (ii) Head of the relevant Department
- (iii) One senior academic (who should be a specialist in the relevant research field) appointed by FRC
- (iv) One co-opted member as and when required

### **10.3.2 Terms of Reference of the FRC Sub-Committee on Plagiarism**

- To consider reports on alleged plagiarism
- To investigate into cases of alleged plagiarism and seek explanations from the student and the Supervisor(s)
- To establish whether the allegation of plagiarism is founded, and if so, to determine whether it is a case of incidental or substantive plagiarism.
- To submit its report and recommendations to FRC

### **10.4 Right to Appeal**

The student shall have the right to appeal against the decision of Senate, by writing to the Registrar, within a period of fourteen days from the date of notification.

### **10.5 MPhil/Transfer Report/PhD Declaration Form (RDDC)**

Each registered MPhil/PhD student of the University of Mauritius is required to submit the MPhil/Transfer Report/PhD Declaration Form (RDDC) duly signed to the Registrar prior to submission of the MPhil thesis / MPhil Transfer Report / PhD thesis.

Three months' prior to the proposed date for submission of MPhil thesis/MPhil Transfer Report / PhD thesis, the student will be required to fill in and sign the RDDC form.

The RDDC form is to be submitted together with the *Notification for Submission of Thesis Form (RDE1)* / *Notification for transfer from MPhil to PhD Form (RDT1)* to the Registrar of the University.

## **The UoM Guide to the Harvard System of Referencing**

October 2005

## **Table of Contents**

The Harvard System.....	8
1. Citation in the text.....	8
2. References or Bibliography.....	10
3. Related Topics.....	14

When writing a piece of work you will need to refer in your text to material written or produced by others. This procedure is called citing or quoting references. Consistency and accuracy are important to enable readers to identify and locate the material to which you have referred. The same set of rules should be followed every time you cite a reference. The system used at the University of Mauritius is the Harvard System.

## The Harvard System

All statements, opinions, conclusions etc. taken from another writer's work should be cited, whether the work is directly **quoted, paraphrased or summarised**. In the Harvard System cited publications are referred to in the text by giving the author's surname and the year of publication (see section 1) and are listed in a bibliography at the end of the text (see section 2).

**Sources/authors:** the person or organisation shown most prominently in the source as responsible for the content in its published form should be given. For anonymous works use 'Anon' instead of a name. For certain kinds of work, e.g. dictionaries or encyclopaedias, or if an item is the co-operative work of many individuals, none of whom have a dominant role, e.g. videos or films, the title may be used instead of an originator or author.

**Dates:** if an exact year or date is not known, an approximate date preceded by 'ca.' may be supplied and given in square brackets. If no such approximation is possible, that should be stated, e.g. [ca.1880] or [no date].

All examples in this are fictitious and any resemblance to existing works is coincidental.

### 1. Citation in the text

- **Quotations** – as a general rule in the University, if the quote is less than a line it may be included in the body of the text in quotation marks. Longer quotations are indented and single-spaced quotation marks are not required. For citations of particular parts of the document the page numbers etc. **may** be given after the year in parentheses.
- **Summaries or paraphrases** – give the citation where it occurs naturally or at the end of the relevant piece of writing.
- **Diagrams, illustrations** – should be referenced as though they were a quotation if they have been taken from a published work.
- If details of **particular parts of a document** are required, e.g. page numbers, they should be given after the year within the parentheses.
- **Rules for citation in text for printed documents also apply to electronic documents except where pagination is absent.** If an electronic document does not include pagination or an equivalent internal referencing system, the extent of the item may be indicated in terms such as the total number of lines, screens, etc., e.g. "[35 lines]" or "[approx. 12 screens]".

## Examples

i) If the author's name occurs naturally in the sentence the year is given in parentheses: -

E.g. In a one of his major works, Toussaint (1980, p.84) argued that we need to take good decisions...

E.g. As Toussaint (1980, p.84) said, "good decisions need to be taken" and so we...

ii) **If the name does not occur naturally in the sentence**, both name and year are given in parentheses: -

E.g. A more recent study (Sherlock 2001, p.211) has shown how theory and practical work interact.

E.g. Theory rises out of practice, and once validated, returns to direct or explain the practice (Sherlock 2001, p.211).

iii) When an **author has published more than one cited document in the same year**, these are distinguished by adding lower case letters (a, b, c, etc.) after the year and within the parentheses: -

E.g. John (1972a, p.31) elaborates on...

iv) If there are **two authors** the surnames of both should be given: -

E.g. Bretzel and Hansel (1895, p.251) have argued that...

v) If there are **more than two authors** the surname of the first author only should be given, followed by et al.: -

E.g. In many rural areas, people have farms with a total amount of... (Picket *et al.* 1928, p.31)

(A full listing of names should appear in the bibliography.)

vi) If the **work is anonymous** then "Anon" should be used: -

E.g. In an article (Anon 1995, p.69) it was stated that...

vii) If it is a reference **to a newspaper article with no author** the name of the paper can be used in place of "Anon": -

E.g. Lots of travellers seem to be going to Mauritius. (Newsweek 2005, p.3)

(You should use the same style in the bibliography.)

viii) If you refer to a **source quoted in another source** you cite both in the text: -

E.g. A research by Rosas (1997 cited Banes 2001, p.98) showed that...

(You should list only the work you have read, i.e. Jones, in the bibliography.)

ix) If you refer to a **contributor in a source\*** you cite just the contributor: -

E.g. Textile industries have been cited as the cornerstone in this field (Bedford 1958, p.56).

See Section 2 below for an explanation of how to list contributions (chapters in books, articles in journals, papers in conference proceeding) in the bibliography.

x) If you refer to a person who has not produced a work, or contributed to one, but who is quoted in someone else's work it is suggested that you should mention the person's name and you must cite the source author: -

E.g. Richard Hammond stressed the part psychology plays in advertising in an interview with Matthews (2001, p.87).

E.g. "Expressive interfaces will always elicit positive emotions", Bob Seagull said in a recent article (Kendall 2003, p.87).

(You should list the work that has been published, i.e. Marshall, in the bibliography.)

### **Personal communications: -**

- Taken from: AIA, 1990. Publication Manual of the Artificial Intelligence Association. 2nd ed. Port-Louis: AIA.

They do not provide recoverable data and so are not included in the reference list. Cite personal communications in the text only. Give initials as well as the surname of the communicator and provide as exact a date as possible.

E.g. Many designers do not acknowledge the usability issues. (Personal communication, May 20, 1994).

## **2. References or Bibliography**

At the end of a piece of work list references to documents cited in the text. This list may be called a *Bibliography* or more commonly *References*. Exceptionally you may be asked to list references not cited in the text but which make an important contribution to your work. These are usually listed under the heading of *Further Reading*. You are advised to review the guidelines issued to you for the preparation of work to clarify this point.

**In the Harvard System, the references are listed in alphabetical order of authors' names.** If you have cited more than one item by a specific author they should be listed chronologically (earliest first), and by letter (1998a, 2001b) if more than one item has been published during a specific year.

Whenever possible, elements of a bibliographical reference should be taken from the title page of the publication.

Each reference should use the elements and punctuation given in the following examples for the different types of published work you may have cited. Underlining is an acceptable alternative to italics when bibliographies are hand written.

Remember that you must acknowledge your source every time you refer to someone else's work. Failure to do so amounts to **plagiarism**, which is against the University rules and is a serious offence. When you are copying or downloading material, you must also ensure that you comply with **copyright** rules. Further information about copyright can be found on notices next to photocopiers. When including third party material in theses and dissertations, it is the responsibility of the individual to ensure the appropriate copyright permission has been obtained.
