INTRODUCTION

1. The University of Mauritius Ordinance No. 39 of 1965 defined the objects of the University, established the Provisional Council as the Supreme body in which were vested all the assets and property of the University and regulated its financial and other administrative functions.
2. The University of Mauritius Act, 1971, providing for the present Constitution and Statutes, received the assent of H.E. the Governor General on 31st May 1971 and came into effect on 1st July 1971. The Act establishes the fundamental powers and structure of the University and defines its purposes and entity as a legally independent body. Details of the Constitution are contained in the Statutes which describe the means and terms of appointment of the officers and staff of the University and the membership, terms of reference and standing orders of committees.

Her Majesty Queen Elizabeth II, who was accompanied by His Royal Highness the Duke of Edinburgh, inaugurated the University on 24th March 1972.

3. Her Royal Highness Princess Alexandra was installed the first Chancellor of the University on 21st October, 1974. Sir Maurice Rault succeeded H.R.H. Princess Alexandra from May 1985 to June 1994.
4. The University was founded on the developmental concept to help in the general development of Mauritius. As such, one of the dominant concerns of the University when it was created was to meet national manpower needs. Today the University provides programmes in all the principal areas of study which would normally be expected in a tertiary institution. Starting from its original nucleus, the two buildings of the former College of Agriculture which were donated by the Government of Mauritius, the University expanded to the following:
 - (i) Phase I of the Development Plan: the School of Agriculture, the School of Administration, the School of Industrial Technology, the Library and the Students' Common Room.
 - (ii) Phase II of the Development Plan: extension of the School of Agriculture; Lecture Theatre of the School of Agriculture; extension of the Library.
 - (iii) The Paul Octave Wiehé Auditorium inaugurated on 28th July 1975 by Mr Pierre Abelin, Ministre de la Coopération du Gouvernement de la République Française and named on 25th May 1981 after the former Vice-Chancellor Dr P O Wiehé.
5. Other developments of significance that indicate the direction in which the University has been moving in are as follows: the setting up of a Computer Centre, the creation of a Department of Law in 1985 and the inauguration of the SSR Centre for Medical Research in 1986; the Department of Textile Technology was set up within the School of Industrial Technology in 1987 although the Textile Technology Building itself became functional in 1992; the Radio Telescope Project is operational at Bras D' Eau since 1989; in 1989 itself, following the Visitor's Report, the University set up a School of Science; the School of Industrial Technology was re-named "School of Engineering" and the School of Administration became the "School of Law, Management and Social Studies". In the same year, an 'Antenne Universitaire' was inaugurated in Rodrigues.
6. In 1993, the School of Law, Management and Social Studies was re-structured into two Faculties, namely the "Faculty of Law and Management" and the "Faculty of Social Studies and Humanities". At the same time the other three schools, namely Agriculture, Engineering and Science became "Faculties".
7. All this development and expansion on Campus has been accompanied by a simultaneous increase in the student population. Starting with the modest figure of 481 in 1968, we now have approximately 6000 students in 2003. The New Academic Complex, inaugurated in November 1994, provides classrooms and lecture halls that can accommodate up to 2500 students at one time and the Tower Block provides accommodation for the Faculty of Science and Law and Management as well for the Central Administration of the University. December 1995 saw the inauguration of the University Students' Centre and the Cafeteria.

8. In 1989, the University of Mauritius established contacts with the Commonwealth of Learning with a view to introduce Distance Education methods. With help from the Canadian International Development Agency and Laurentian University (Canada), good progress was achieved and a Centre for Extra-Mural Studies was set up in 1993. Renamed now as the Jay Baguant Centre for Distance Learning, it is responsible for running some programmes and modules using Distance Education Techniques, with assistance from various Canadian Universities.

Over the last seven years, the University has gradually introduced 'modules' in various programmes. Modularisation of programmes is an essential pre-requisite to implement an effective Distance Education System and to establish a Course Credit and Accreditation System. The latter provides a greater flexibility for students.

The University of Mauritius entered a new development phase when the Virtual Centre for Innovative Learning Technologies (VCILT) was created in 2001. The VCILT is responsible for providing technical support to academics and tutors to develop on-line web-based education and telelearning at the University and throughout the country. The VCILT's complete e-learning environment gives access to academic programmes of a professional nature.

9. The "raison d'être" of the University of Mauritius, as stipulated by the University Act, is to provide a University education responsive to the social, administrative, scientific, agricultural and technological needs of Mauritius. Until recently emphasis was placed on manpower training and teaching at degree, diploma and certificate levels in science, agriculture, sugar technology, engineering, public administration, social studies, business management, information technology and associated professional studies. The University is gradually shifting emphasis from a predominantly teaching institution to research, both as part of its manpower development programme and as a contribution to the growth of knowledge.
10. Close partnership exists between the University and the other tertiary institutions, and different Government Ministries, parastatal bodies, the private sector and the NGOs.
11. As indeed planned when the University was set up, a nucleus of established academic staff is constantly enriched by the experience of part-time lecturers from the MSIRI, the Ministry of Agriculture and other institutions. Furthermore, the University has links with various prestigious UK Universities, all of which assist our development in more ways than can be appropriately acknowledged, through considerable support from the British Council. The University also benefits from very useful informal working arrangements with Brunel University (London) and the University of Warwick as well as from the Commonwealth Science Council and the Commonwealth Secretariat. Formal links with certain institutions in Canada, France, Holland, India and the USA have been explored and some established: the University of Mauritius thus benefits from a wider and more varied experience than in the past.
12. The University of Mauritius is an active member of the Association of Commonwealth Universities, the Association of African Universities and of the Agence Universitaire de la Francophonie.
13. Current developments underway at the University of Mauritius are the completion of the works of the Gymnasium and the Engineering Tower.
14. The concept of Lifelong Learning was formalised in October 2003 through the Lifelong Learning Cluster. This project will enable the three Centres (JBCDL, CITS and VCILT) to pool resources and collaborate with Faculties to provide tailor-made programmes and services to Lifelong Learners.
15. Quality Assurance has taken a new dimension with the setting up of the Quality Assurance Office. The Office aims, amongst other activities, at contributing to the formulation of the University's Quality Assurance and Enhancement Policies and Practices and their implementation and monitoring across the University and, where appropriate, in collaborative partner institutions (MIE, MGI and School of Advanced Computing).
16. The number of academic and non-academic staff as at March 2004 is 233 and 683 respectively, and the total student population was approximately 5918 (47% female) for the academic year 2003-2004.

Students may also register as 'auditeur libre' for specific modules subject to approval by the Faculty/Cluster Board.
- (ii) All students are required to register before starting their programmes and at the beginning of each subsequent level/year of their programme. The days on which students register shall be announced by the University and only with the special permission of the Registrar may a student be permitted to register other than on the appointed days.

- (iv) Registration implies agreement by the student registering, while s/he remains a registered student, to abide by the authority and discipline of the University conferred by the University of Mauritius Act, 1971, as subsequently amended in 1992, by the Statutes and by the Regulations and Rules for the time being in force and expressed through the Council, the Senate, the Boards of Faculties and the duly appointed officers of the University in the discharge of their lawful duties.

Absence due to ill health must immediately be notified by the student to the Dean of the Faculty/Director of Centre concerned through the Programme Coordinator.

Students are expected to attend all lectures, tutorials and other forms of instruction prescribed by their scheme of study and to complete the required elements that make up the Continuous Assessment component of the programme. A student who is unable to attend some classes for any reason must notify, in writing, the Dean of Faculty/Centre Director through his/her Programme Coordinator, and supply relevant documentation. 2.4 Conduct of Students and University Discipline

Students shall at all times conduct themselves in a manner conducive to the furtherance of the objects of the University and to the maintenance of its efficiency and well-being as an academic community.

The following shall be held to be a breach of University discipline rendering a student liable to action under the code of Discipline:

- (i) Breaches of Criminal Law. These will invariably be reported to the police but this in no way prejudices the right of the University to institute its own disciplinary proceedings whatever the outcome of the reference to the police.

No student may return to follow courses at the University until a medical practitioner appointed by the University has provided her/him with a certificate, which is to be forwarded immediately to the Dean of the Faculty/Centre Director stating that there is no longer any danger of infection being conveyed to other persons.

- (ii) 'Copy' is marked across it.

2.8 Statements to the Press

No student may make/issue statements to the Press, radio or television on behalf of the University without prior permission of the Vice-Chancellor through the President of the Students' Union. This is without prejudice to the right of an individual to make public statements on her/his own behalf.

2.9 Notices

The contents of any notice posted on University Notice Boards or on official Faculty/Centre Notice Boards will be assumed to be known to students.

CHAPTER 3

GENERAL INFORMATION FOR STUDENTS

3.1 Academic Year

The academic year of the University is divided into 2 Semesters each of **15 weeks' duration**.

Examinations are held immediately after the 15th week of each Semester or at the end of the academic year and are usually of two-three weeks' duration. Results normally become official as from the 3rd week after examinations.

3.2 Programme Structure

3.2.1 Modules

Each Programme of Studies (e.g. BSc (Hons) Chemistry, MA French, etc.) is made up of a number of courses known as "*modules*".

Each module usually consists of an equivalent of 45-90 contact hours comprising lectures, tutorials, laboratory/field work, etc. Students are, however, expected to put in additional work through private study, library work, etc. Each module normally carries 3-6 credits, unless otherwise stated.

3.2.1.1 Types of Modules

Modules form the basis of all Programmes of Studies. Modules are of 4 main types:

- A **Core Module** is a module that is essential in the particular Programme of Studies and must be taken and passed by all students on that particular Programme. If a student fails a core module, s/he has to retake it.
- An **Elective Module** is a module for which the student usually has a choice whether to register or not. In case a student fails an elective, s/he has the choice either to register for the same or another elective that is on offer.
- An **Optional Elective** is a module which is on offer when there is specialisation. The minimum number of optional electives or number of credits prescribed on a Programme for a particular specialisation has to be passed or earned respectively for the student to qualify for the award in the particular field.
- A **General Education Module (GEM)** is an elective module meant to enhance the students' general knowledge. Students should normally take at least 3 GEMs (at least 9 credits) for any undergraduate programme unless otherwise specified by the Programme of Studies.

Given resource constraints and critical mass consideration, the University does **not** bind itself to offer any specific elective in any Semester/Year. For the time being, GEMs are restricted to undergraduate students. Faculties/Centres will indicate the GEMs on offer each Semester/Year.

3.2.1.2 Modules of Special Nature

Self-Study Modules

Under special circumstances, a student may be allowed to complete up to 6 credits (with grades) for undergraduate degrees, diplomas and certificates and 2 modules for postgraduate degrees, diplomas and certificates, by self-study, subject to recommendations by a Department and approved by a Faculty Board or Cluster Board. Self-study modules will be amongst regular modules listed in the programme. There will not be formal lectures but laboratory work will be conducted, if necessary. Assessment will be based on laboratory work and/or assignments as well as tests and examinations.

Independent Study

One elective in the form of a project may be offered to students who have already earned at least 75 credits. This elective will carry 3 credits and must be completed in a maximum of 2 Semesters.

Grade S, U or X will be awarded for Independent Study.

Audit Modules

Students who wish to follow specific module(s) or are advised to do so by a Department/Centre may audit same (i.e. such modules are not examinable for them). However, such modules do not carry any credit nor any grade but would appear in their transcript subject to satisfactory attendance.

3.3 Regulations of a Miscellaneous Nature

3.3.1 Module Change/Withdrawal

Application for change of a module or withdrawal from a module could only be considered within two (2) weeks from the start of the semester.

It is to be noted that under the Credit System, students who have not withdrawn officially from a module within the deadline and who do not sit for the examination in question will be deemed to have failed that module. As such, her/his CPA and GPA will be adversely affected.

3.3.2 Exemption from Module(s)

Application for exemption from module(s) for the whole Programme of Studies could only be considered within two (2) weeks from the start of the academic year/beginning of the Programme of Studies.

Application for Exemption on a piece-meal basis would not be entertained.

Not more than 50% of a Programme of Studies could be exempted.

The student must have scored at least a grade C in the relevant module.

The general principle governing exemption would be that the Exemption Committee of the relevant department/centre should be satisfied that there are no significant differences in the 2 syllabi in terms of level and depth of coverage and assessment.

It is not advisable to grant exemption when the time gap between the date when the module was passed and the date when exemption is being claimed for that module exceeds 7 years.

3.3.3 Transfer from one Programme to another within a Faculty/inter-Faculty

The University of Mauritius Student Work Experience Programme (SWEP) was launched in 1999 in order to help University students acquire meaningful skills and experience from the world of work and thus enrich their academic training. SWEP is a 6-8 week training programme in an industry or organisation during the long vacation (mid May to end July). It is designed to expose students to short work placements, real life tasks and activities, which are vital elements in today's competitive business environment. In principle, it is meant for students following Programmes of Studies, which do not provide for industrial training/placement.

3.8 Industrial Placement/ Practical Training/Practicums

All four-year Programmes at the Faculty of Engineering include an Industrial Placement whereby students are attached to the industry for a period of four months. Practical Training or Placements are also included in other Programmes of Studies (refer to Information on Programmes Handbook(s)).

3.9 TOSP

TOSP stands for Transferable Outreach Skills Programme and is meant to enhance students' knowledge, skills and attitude for greater employability. TOSPs aim at producing broadly educated, self-motivated graduates, with an inclination for lifelong learning, being aware of their heritage, conscious of their civic obligation and ethically responsible for their professional career.

TOSP is generally a 10-12 hour module and is not examinable. It can be offered within or outside semesters.

Satisfactory completion of any TOSP will appear in the transcript.

Students are advised to consult Notice Boards accordingly for details of offer, venue, etc.

- (ii) The Regulations are published in the “General Information to Students” Handbook and copies are available for consultation at the Admissions and Students Records Office, the University Library, the Faculties/Centres and in the Students’ Union Office.
- (iii) This code regulates disciplinary action arising out of breaches of the University’s General Regulations for students and the Regulations for the conduct of University Examinations and are made under Section 21 (c) of the University of Mauritius Act, 1971.

4.2 Disciplinary Powers

4.2.1 The Senate

By the provisions of Statutes 20(r), the Senate may “take such disciplinary action it thinks fit against any student who in the opinion of Senate or anybody or person authorised to act on its behalf in this respect, has contravened the Regulations or acted in a manner prejudicial to the furtherance of the objects of the University as laid down in the Act or to the maintenance of its efficiency or well-being as an academic community”. The powers which the Senate may exercise include the power to fine, to exclude from the University, to suspend from membership of the University and to expel permanently from membership of the University.

The Senate has under the provisions of the Statutes delegated to the Vice-Chancellor (or, in her/his absence, a Pro-Vice-Chancellor) the power to act in any situation which in her/his judgement constitutes an emergency and warrants immediate action. The Vice-Chancellor is empowered to suspend a student from membership of the University pending the determination of disciplinary proceedings by the Senate Discipline Committee which would be convened as soon as possible following such a suspension to consider the case according to this code.

4.2.2 The Vice-Chancellor

The Vice-Chancellor has disciplinary powers under Statute 6 (4) (c) which states:

“pending consideration by the Council or the Senate to suspend, on what s/he deems to be good cause, any member of the staff of the University or any student under such terms and until such time as s/he may determine”.

In the absence of the Vice-Chancellor, these powers may be exercised by a Pro-Vice-Chancellor.

4.2.3 Discipline Committee and Appeals Committee

The Senate has established a Discipline Committee to hear and determine cases arising out of alleged breaches of the University’s General Regulations for students and the Regulations for the conduct of University examinations.

The Senate has also established an Appeals Committee to hear and determine appeals against decisions of the Discipline Committee.

No member of one of the Committees is eligible during her/his period of office from membership of the other.

Two Deans of Faculty nominated by the Vice-Chancellor (One of them to be appointed Chairperson).
Three members not being students appointed by Senate.

Two students’ representatives appointed by Senate on the recommendation of the Students’ Union.

CHAPTER 6

THE CREDIT SYSTEM

Almost all Programmes at the University are structured on the credit system. A credit is a unit of measure, and programmes are based on the following guidelines.

6.1 Credit Equivalence

- (i) 15 hours of lectures/tutorials = 1 credit
- (ii) 30-45 hours of laboratory/field work = 1 credit
- (iii) Final year Project (Certificate Level) = up to 3 credits
- (iv) Final year Project (Diploma Level) = up to 6 credits
- (v) Final year Project (3-3½-Year Degree Level) = up to 10 credits
- (vi) Final year Project (4-Year Degree Level) = up to 12 credits

Normally a three-credit module is equivalent to 45 contact hours.

6.2 Minimum Credits for University of Mauritius Award

Type of Programme	Minimum Credits	Minimum Contact Hours
(i) 3-3½ year Undergraduate Degree	100	1500
(ii) 4 year Undergraduate Degree	120	1800
(iii) 2 year Undergraduate Diploma (F/T) or equivalent (P/T)	60	900
(iv) 1 year Undergraduate Certificate	30	450
(v) Postgraduate Certificate	12	180
(vi) Postgraduate Diploma	24	360
(vii) Master's	36	540

6.3 Credits per Semester/Year

Programmes abiding by semester regulations:

Maximum credits per semester (including Retake Modules) - 24

Minimum credits per semester - 3 credits
(or as prescribed by the Faculty/Centre concerned)

Programmes abiding by yearly regulations:

Maximum credits per year (including Retake Modules) - 48

Minimum credits per year - 6
(or as prescribed by the Faculty/Centre concerned)

6.4 Duration of Programmes

In general the duration of a Programme is as follows:

	Normal	Maximum
Certificate	1 year	2 years
Diploma	2 years	3 years
3 year Degree	3 years	5 years
3½ year Degree	3½ years	5½ years
4 year Degree	4 years	7 years
Flexible		7 years

6.5 Coding System

Each module has a unique code of 4 or 5 digits, #¹#²#³#⁴ or #¹#²#³#⁴(#⁵), representing normally the following:

- #¹: Year (y), where 1 ≤ y ≤ 5, for undergraduate programmes;
- #²: Semester (s), where 1 ≤ s ≤ 2; s=0 if module is on offer during both semesters;
- #³#⁴: Module Number (01-99); and
- (#⁵): Weighting (w), where w = 1, 3 or 5 (see table below)

WEIGHT	MODULE STATUS
1	Introductory
3	Intermediate
5	Advanced

For example, the module ELEC 1101(1) is normally offered in year 1 semester 1, and carries a weighting of 1.

Some modules are denoted by suffix Y after the fourth digit in the module code, e.g. CSE 1001Y(1). These modules, termed yearly modules, are taught over a period of two semesters and are examined at the end of the second semester only.

6.6 Assessment

Students are required to register for modules which they intend to follow in a given semester/year on date(s) specified by the Faculty/Centre.

Each yearly module will be assessed over 100 marks whereas each semester modules may either be assessed singly over 100 marks or it may be combined with another semester module and assessed jointly over 100 marks with details as follows (unless otherwise specified):

Assessment will be based on a written examination of 2 to 3-hour duration (normally a paper of 2 hour duration for modules carrying less or equal to three credits, 2½ hour paper for modules carrying 3.5–4.5 credits and 3 hour paper for modules carrying five-six credits) and on continuous assessment done during the semester or year.

Written examinations for modules, whether taught in semester 1 or in semester 2 or both will be carried out either at the end of the semester or academic year depending on the modules and/or Programme of Studies.

The continuous assessment will count for 10-40% of the overall percentage mark of the module(s), except for a Programme where the structure makes for other specific provision(s). Continuous assessment may be based on laboratory work, seminars and/or assignments and should include at least one class test.

There will be a compulsory class test for all modules taught in semester 1 and which are examined at the end of semester 2 of the given academic year unless otherwise stated in the Programme Structure.

A minimum of at least 30% should be attained in each of continuous assessment and written examination with an overall total of 40% for a candidate to pass a module (unless otherwise specified). For modules being assessed jointly, a minimum of at least 30% should be attained in each of the continuous assessment and written examination, with an overall total of 40% for a candidate to pass the two modules (unless otherwise specified). Note that the overall mark for the two modules will be considered and not the individual marks for each of the two modules.

Special examinations (e.g class test) will be arranged at the end of semester 1 or semester 2 for exchange students who have registered only for one semester. In case of yearly modules, credits will be assigned on a pro-rata basis.

Students are required to submit work for continuous assessment by due dates. Failure to do so will normally incur penalties.

6.7 Grade Point Average (GPA) and Cumulative Point Average (CPA) Formulae

Under the GPA, the following letter grades and their grade point equivalent are used:

Letter Grade	Grade Point	Percentage
A ⁺	4.00	$90 \leq x \leq 100$
A		$80 \leq x < 90$
A ⁻		$70 \leq x < 80$
B ⁺	3.00	$65 \leq x < 70$
B		$60 \leq x < 65$
B ⁻		$55 \leq x < 60$
C	2.00	$50 \leq x < 55$
C ⁻		$45 \leq x < 50$
D	1.00	$40 \leq x < 45$
E	0	$30 \leq x < 40$
F	0	$x < 30$

Academic standing of students is determined on the basis of a grade point average (GPA) and the Cumulative Point Average (CPA) computed as follows:

$$\text{GPA} = \frac{\sum (\text{MW Attempted} \times \text{Grade point})}{\sum \text{MW Attempted}}$$

$$\text{CPA} = \frac{\sum (\text{MW Attempted} \times \% \text{ Marks})}{\sum \text{MW Attempted}}$$

where MW is the Module Weight = module credit units x Weighting (w)

6.7.1 Definition of Letter Grades and Symbol

- Grades A⁺ to D - Passes and Earns credits and grade points.
- Grades E and F - Fails and Earns no credits, no grade points.
- Grade G - Fails either continuous assessment or examination (but not both). Earns no credits, no grade points. Will be considered in GPA/CPA computation.
- Grade I - Indicates incomplete module(s) and would be provisionally awarded for cases where re-examination is allowed on medical grounds and other special circumstances subject to approval by Faculty or Cluster Board and Senate upon recommendation by the Board of Examiners.
- Letter R - On the transcript, the letter R will appear next to the grade obtained, in cases where a module has been passed after retake(s) of the module. It carries no credit value or points.
- Grade S - Satisfactory completion (i.e. minimum passmark or successful attendance). Earns credits, (if specified in the Programme Structure) but not considered in GPA/CPA computation.
- Grade U - Unsatisfactory completion (i.e. less than minimum passmark). Earns no credit and not considered in GPA and CPA computation.

Grade X - Awarded for incomplete project/independent study and will be converted to a regular grade on the completion of the project/independent study.

6.7.2 Restrictions

- (i) A student will be allowed to follow module **y** of which module **x** is a *pre-requisite* (PR) provided Grade E or G or above has been achieved in module **x** unless decided otherwise by the Faculty or Cluster Board and Senate.
- (ii) A student will be allowed to follow module **y** of which module **x** is a *pre-requirement* (PQ) provided s/he has followed module **x** and sat for the examinations in module **x** unless decided otherwise by the Faculty/Cluster Board and Senate.
- (iii) A student is required to retake all core modules and compulsory elective(s) in which s/he has obtained an E or F or G grade unless otherwise specified by Faculty/Cluster Board.
- (iv) In the case of failure in an elective module or General Education Module, a student can either retake the same module or register for a different module.
- (v) A student will not be allowed to retake a module in which s/he has already achieved a D grade or above.

6.8 Classification of Awards

The award classification will be based on the CPA (x) at the end of the Programme of Studies as follows, unless otherwise stated:

6.8.1 Taught Postgraduate Programmes (Master's Degree, Postgraduate Diploma and Certificate)

DISTINCTION:	CPA	≥ 70
PASS:	CPA	$40 \leq x < 70$

6.8.2 Undergraduate Degree Programmes

CPA	CLASSIFICATION
≥ 70	1 st Class
$60 \leq x < 70$	2 nd Class 1 st Division
$50 \leq x < 60$	2 nd Class 2 nd Division
$45 \leq x < 50$	3 rd Class
$40 \leq x < 45$	Pass
< 40	No Award

} With Honours

6.8.3 Diploma

Diploma with DISTINCTION:	CPA	≥ 70
Diploma at PASS level:	CPA	$40 \leq x < 70$

6.8.4 Certificate

Certificate with MERIT:	CPA	≥ 70
Certificate at PASS level:	CPA	$40 \leq x < 70$

6.8.5 Aegrotat Degree

A student who has obtained at least 75% of the credits required for a degree but who has been compelled through illness or other valid reason acceptable by Senate to be absent from final year examinations may apply for an aegrotat degree under the following regulations:

- (i) the student must have followed her/his Programme of Studies for the degree and must have paid all fees due (if any);
- (ii) the student must have completed her/his project/dissertation;
- (iii) an application for consideration must be made to the Registrar by the student as soon as possible and not later than one week from the last day of the examination and must be accompanied by a medical certificate or other statement of the grounds on which the application is made;
- (iv) an aegrotat degree will not be awarded to the student unless the past records of the student on her/his performance convince the Board of Examiners that the student would have reached a standard which would have qualified her/him for the award of a degree has s/he been able to take the examinations under normal circumstances;
- (v) an aegrotat degree will be awarded without distinction or class and the words "Aegrotat" will appear on the certificate;
- (vi) holders of an aegrotat degree will not be eligible to re-enter for the examinations for the classified degree of the same degree programme but they may proceed to a second or higher degree complying with regulations of such degree.

6.8.6 Exit Points

A student whose registration is on the point of being terminated, as a result of having her/his CPA < 40 at the end of an academic year and who has already repeated one year of study (for Programmes abiding by yearly regulations) or having her/his CPA < 40 for two consecutive registered semesters (for Programmes abiding by semester regulations) or exceeded the maximum number of semesters/years allowed for the programme, but who has accumulated a certain number of credits, may be provided with the following exit points (unless already provided for in their Programme Structures) subject to approval by the Board of Examiners, Faculty/Cluster Board and Senate;

- (i) student having acquired at least 30 credits may be awarded a Certificate; and
- (ii) student having accumulated at least 60 credits may be awarded a Diploma.

6.9 Retake Modules and Re-Submission of Dissertation

Under the credit system there is no provision for re-sit examinations. Students should retake failed modules if these are core, i.e. they take the modules afresh. Any modules if retaken, would be examined with the next cohort of students.

A student who retakes a module (core or elective or General Education Module) must normally submit new assignment(s), take part in the class test(s) and re-write the examination.

The University will not make individual arrangement to suit individual cases. The onus is upon the students to accommodate conditions for a retake module in her/his time-table.

However under circumstances where Grade I has been awarded, the student may be exempted from submitting assignment(s) and taking part in class test(s) subject to approval by the Department and Faculty/Cluster Board.

As the GPA/CPA denominator refers to sum of module weights attempted, failing a module will lead to a fall in GPA/CPA.

A student who has failed her/his dissertation/project must submit a new one unless decided otherwise by the Board of Examiners, Faculty/Cluster Board and Senate. The maximum duration allowed for submission of a new project/dissertation and an amended project/dissertation is one year and one semester respectively.

All dissertations in the final version should be submitted to the Faculty/Centre Office by due dates. Late submission will entail a weekly penalty of 5% (up to a maximum period of 3 weeks) on the dissertation marks obtained unless decided otherwise by the Faculty/Centre. After this period of 3 weeks, the dissertation will be deemed to be unreceivable.

6.10 Re-Assessment

Re-assessment will be allowed only on medical grounds and other special circumstances subject to approval by Faculty/Cluster Board and Senate upon recommendation by the Board of Examiners. In such cases Grade I indicating incomplete would be provisionally awarded.

Students will not be allowed to follow module **y** of which module **x** is a pre-requisite if grade I has been provisionally awarded for module **x** and as long as the grade I has not been changed to grade E or above unless otherwise decided by Faculty/Cluster Board and Senate.

6.11 Grade I

Grade I will cover the following situations:

- (i) Students are enrolled for a module in a particular semester/year but credits will only be earned on successful completion of the module;
- (ii) Students are absent for one or more modules but the absence is justified (e.g. absence due to ill-health and presentation of valid medical certificates within the prescribed time limit);
- (iii) Results may be withheld in cases of examination irregularity, pending the decision of Discipline Committee;
- (iv) Practical Training not yet completed;
- (v) Industrial Training not yet completed;
- (vi) Vacation Specialised Study (undertaken after exams); or
- (vii) Other special circumstances (e.g. death of close relative).

6.12 Yearly/Semester Regulations

Yearly regulations will apply to

- (i) Programmes of Studies in which yearly modules (excluding dissertation/project) comprise equal or more than 50% of core credits;
- (ii) Programmes of Studies in which modules taught in semester 1 and amounting to equal or more than 50% of core credits of semester 1 are examined at the end of the academic year.

Semester regulations will be applicable to all other Programmes of Studies unless otherwise specified.

Note that the main differences between yearly and semester regulations concern termination of registration and repeat.

For Programmes abiding by yearly regulations, if CPA of a student < 40 at the end of an academic year, s/he will have to repeat the entire academic year, and retake the modules as and when offered. However, s/he will not be required, if s/he wishes, to retake modules for which Grade C or above has been obtained.

Students are allowed to repeat only once over the entire duration of the Programme of Studies.

CHAPTER 7

REGULATIONS FOR THE PHYSICAL FORMAT AND LAYOUT OF DISSERTATIONS AND THESES

7.1 General

The document shall be bound in book form in a fixed binding. The boards shall have sufficient rigidity to support the weight of the work when standing upon the shelf. The cover shall be black and full bound for postgraduate degrees and grey, quarter bound for undergraduate qualifications.

The spine of the volume shall bear in at least 24 pt (8mm) type the qualification and the candidate's surname and initials and the year of presentation in gold lettering, starting 40mm from the base. This information shall be printed along the spine in such a way as to be readable when the volume is lying flat with the back cover uppermost. If the document consists of more than one volume the spine shall bear the number of each volume.

The front cover shall bear in at least 24 pt (8mm) type the full title of the work as approved by Senate or Faculty/Cluster Board as the case may be.

7.3 Paper and Typographical Detail

The document may be either computer printed or typewritten or typewritten-cyclostyled; where the thesis is typewritten it must be on one side of the paper only with 1½ or double spacing; one of the copies must be the typescript (top copy). Character shall not be less than 8 pt (2.75mm). Copies produced by xerographic processes are acceptable.

The size of the paper used shall be international A4 (300 x 210mm). Paper shall be of good quality and of sufficient capacity for normal reading.

Margins at the binding edge shall be not less than 40mm and other margins not less than 20mm.

7.4 Pagination

Pages shall be numbered consecutively through the document commencing with the title page, including appendices.

Page numbers shall be located centrally at the bottom of the page, approximately 10mm above the edge.

If there is more than one volume, each volume shall have its own pagination.

7.5 Preliminaries

The title page of the document shall give the following information in order listed:

The full title of the works as approved by Senate or Faculty/Cluster Board as the case may be;

The full name of the author;

The qualification for which the document is submitted;

The name of the institution to which the document is submitted;

The department or organisation in which the project or research was conducted; and

The month and year of submission.

The table of contents shall follow the title page. It shall list in sequence with page numbers all subdivisions of the thesis.

The lists of tables and illustrations, if any, shall follow the table of contents.

Any acknowledgement shall be on the page following the lists of tables and illustrations.

When submitting a document the author shall indicate in a declaration any material in the document which she/he has used before in support of an application for another degree or qualification. If the document is based on joint research the nature and extent of the author's own contribution shall be indicated. The declaration shall follow the acknowledgements.

An abstract of the document shall follow this declaration.

Where symbols and/or abbreviations are used, a key shall be provided which shall follow the abstract.

7.6 Text

The text of the document shall be preceded by an introduction which shall follow the abstract.

The document shall be divided as appropriate into chapters, sections and subsections.

References cited in the text may be given in one of the following two methods:

- (i) References in the text could be identified by numbers typed as superscripts, or, if on the line, in brackets immediately following the citation in the text.
- (ii) References in the text may be identified by the author(s) name(s) or by Anon. (Anonymous) if unknown, followed by the year of publication of the reference being cited.

The list of references shall be arranged depending on the manner in which they were identified in the text. The list of references should be arranged in the order in which the references were cited in the document. If they were identified according to (ii), based on the Harvard System, the name of author(s) should be listed in alphabetical order.

If a bibliography is supplied, it should be arranged in a logical manner, for example, alphabetically by authors, in broad subject classes or chronologically. The bibliography shall normally follow the list of references.

An index (if provided) shall follow the bibliography (if any).

Appendices shall follow the main text.

7.7 Illustrations

Whenever practicable, diagrams, maps, illustrations, computer printouts, published papers and tables shall have a binding margin of at least 40mm. Computer printouts should be burst before binding.

Photographic prints shall be on single weight paper or permanently mounted on appropriate paper for binding and shall be securely fixed in the document.

Other materials such as sound and video tapes, slides and drawings which cannot conveniently be bound in the thesis shall be packaged in a rigid container similar in format to the bound document.

Illustrations shall be numbered consecutively in arabic numbers. The numbers and captions shall be at the bottom of the illustrations. (The top of an illustration which is bound sideways shall be to the left of the page).

Tables shall be numbered consecutively throughout the thesis in arabic numbers; the numbers and captions shall be at the top of the tables.

CHAPTER 8

PLAGIARISM AND FABRICATION OR FALSIFICATION OF RESULT(S)/ DOCUMENT(S)

8.1 Introduction

Plagiarism and fabrication or falsification of result(s)/ document(s) constitute examples of examination irregularities and are considered as serious offences in the academic world.

8.2 Plagiarism

Plagiarism involves using the work of another person and presenting it as one's own, whether published or unpublished. Any of the following acts constitutes plagiarism:

- (i) submitting the work of another or part of it as one's own, whether published or unpublished;
- (ii) directly reproducing from a source without proper citation;
- (iii) paraphrasing or summarizing another's work without acknowledging the source;
- (iv) using facts, figures, graphs, charts or information without acknowledging the source;
- (v) downloading part(s) of any document, graphics, artwork or other material from the internet and presenting it as one's own without acknowledgement;
- (vi) any infringement of the Copyright Act.

8.3 Fabrication or Falsification of Result(s)/ Document(s)

Any of the following acts constitutes fabrication or falsification of result(s)/ document(s):

- (vi) altering, distorting, inventing, or counterfeiting information;
- (vii) counterfeiting a record of internship or practicum experience;
- (viii) falsely citing a source of information;
- (ix) altering grade reports or other academic records;
- (x) submitting a fraudulent document for missing a class test or other academic assignment.

8.4 Procedures for Handling Plagiarism and Fabrication or Falsification of Result(s)/ Document(s)

8.4.1 Where a candidate is suspected of plagiarism as defined in section 8.2 or fabrication or falsification of result(s)/ document(s) as defined in section 8.3, the offence is firstly classified under one of the following three categories:

- (i) a first offence in an assignment (including practicals) where the act of plagiarism and/or fabrication or falsification comprises < 25% of the work;
- (ii) a second (or subsequent) offence in an assignment (including practicals) **OR** an offence in an assignment (including practicals) where the act of plagiarism and/or fabrication or falsification comprises $\geq 25\%$ of the work;
- (iii) an offence in a project/ dissertation/ mini-project.

8.4.2 For a first offence in an assignment (including practicals) where the act of plagiarism and/or fabrication or falsification comprises < 25% of the work, the matter is considered at the level of the respective Faculty/ Centre/ Partner Institution.

8.4.2.1 The student is invited to give an explanation to the assessor/lecturer.

8.4.2.2 If the student admits the offence, the assessor/lecturer may:

- (i) give a verbal warning to the student;
- (ii) reduce the mark of the student in the assignment;
- (iii) set the mark of the assignment to zero; or
- (iv) give a verbal warning and a new assignment to the student.

A note of the offence should be sent to the Examinations Office/Administrative Assistant through the Dean/ Director, Head of Department and Programme Coordinator, and signed by both the student and assessor/lecturer.

8.4.2.3 If the student denies the act and the assessor/lecturer is convinced with the explanation given, the case is closed.

8.4.2.4 However, if the student denies the act and the assessor/lecturer is not convinced of the explanation, the matter is referred to the Head of Department.

8.4.2.5 The Head of Department calls a meeting, for explanation, with the student, the assessor/lecturer involved, Programme Coordinator and an academic outside the Department within the same Faculty/ Centre.

8.4.2.6 If the student admits the offence during the meeting, one of the penalties as listed in section 8.4.2.2 above is given to the student and a note of the offence is sent to the Examinations Office/Administrative Assistant through the Dean/ Director, Head of Department and Programme Coordinator, and signed by both the student and the assessor/lecturer.

8.4.2.7 If again the student denies the act and members at the meeting are still not convinced, the matter is referred to the Dean/ Director who submits the case to the Discipline Committee.

8.4.2.8 The Discipline Committee considers the case as per its regulations (*refer to the relevant section(s) on Discipline Committee in the "General Information to Students" Handbook*) and submits its views to the Senate who decides on the penalty to be applied (if any).

8.4.3 For a second (or subsequent) offence in an assignment (including practicals) **OR** an offence in an assignment (including practicals) where the act of plagiarism and/or fabrication or falsification comprises $\geq 25\%$ of the work **OR** an offence in a project/ dissertation/ mini-project, the following procedure should be followed:

8.4.3.1 The matter is referred to the Dean/ Director through the Head of Department and the Programme Coordinator.

8.4.3.2 The Dean/ Director thereafter submits the case to the Discipline Committee which considers the matter as per its regulations (*refer to relevant section(s) on Discipline Committee in the "General Information to Students" Handbook*) and submits its views to the Senate who decides on the penalty to be applied (if any).

8.4.3.3 Senate may impose one of the following penalties depending on the extent of the offence:

- (i) award the student lower marks than those s/he would otherwise have scored in the assessed work in which the plagiarism and/or fabrication or falsification was committed;
- (ii) award 'zero' mark to the student in the module in which the offence was committed;

- (iii) (a) award the student minimum passmark in all modules (including retake modules) attempted in the semester or year (as appropriate) in which s/he has passed; and
- (b) the student be deemed to have failed in the module in which the offence was committed and scored zero mark and should retake the same module for minimum passmark only; and
- (c) in case the student had failed in any of the other modules in the semester or year (as appropriate), s/he should be re-examined in the same module(s) for minimum passmark only;
- (iv) award the student a lower class of degree than the one which s/he would otherwise have been awarded;
- (v) terminate the registration of the student.

8.5 Plagiarism and Fabrication or Falsification Form

Each registered student of the University of Mauritius has to sign a plagiarism and fabrication or falsification form within two weeks after the beginning of lectures. The words as written on the form are as follows:

"I have read the University of Mauritius Handbook ("General Information to Students 20.../20...") and I have understood the section(s) on "Plagiarism and Fabrication or Falsification of Result(s)/ Document(s)". Notwithstanding the supervision provided to me by the University of Mauritius, I warrant that any alleged act(s) of plagiarism and/or fabrication or falsification of result(s)/ document(s) during my stay as a registered student of the University of Mauritius is entirely my own responsibility and the University of Mauritius and/or its employees shall under no circumstances whatsoever be under any liability of any kind in respect of the aforesaid act(s) of plagiarism and/or fabrication or falsification of result(s)/ document(s)".

8.6 Avoiding Plagiarism (Note to Students)

Attention of students is drawn to the fact that 'plagiarism' is considered as a serious offence in the academic world and that it may cost the student a reduction in his/her class award or in some cases even expulsion from the University.

Coursework, dissertations, projects and essays submitted for assessment must be the student's own work, unless in the case of group projects/ assignments where a joint effort is expected and is indicated as such.

Therefore students should always:

- (i) state clearly and in the appropriate form where they found the material on which they have based their work;
- (ii) acknowledge the people whose concepts, experiments, or results they have extracted, developed or summarized even if these ideas have been put in their own words; and
- (iii) avoid excessive copying of paragraphs by another author, even when the source is acknowledged.

**PLAGIARISM AND FABRICATION OR
FALSIFICATION FORM**

I have read the University of Mauritius Handbook ("General Information to Students (20.../20...") and I have understood the section(s) on "Plagiarism and Fabrication or Falsification of Result(s)/ Document(s)". Notwithstanding the supervision provided to me by the University of Mauritius, I warrant that any alleged act(s) of plagiarism and/or fabrication or falsification of result(s)/ document(s) during my stay as a registered student of the University of Mauritius is entirely my own responsibility and the University of Mauritius and/or its employees shall under no circumstances whatsoever be under any liability of any kind in respect of the aforesaid act(s) of plagiarism and/or fabrication or falsification of result(s)/ document(s).

CHAPTER 15

THE UNIVERSITY LIBRARY

15.1 GENERAL INFORMATION

15.1.1 Building Capacity

The first phase of the University Library, almost in the geographic centre of the campus, is a modern functional building on two levels. The library was designed by Messrs Norman and Dawbarn, as were most of the University buildings during that time. Its foundation stone was laid down by Her Royal Highness Princess Alexandra on 15th September 1969 and the structure itself was completed two years later. It has a floor area of 10,200 square feet with a book capacity of approximately 50,000 and space for 120 readers. An extension of about 22,000 square feet to the first library building started in 1977 and was completed by the end of 1979.

15.1.2 Ground Floor

The ground floor houses the administrative, technical, circulation and staff sections and a browsing area. It comprises a spacious counter area and lobby, offices for the Chief Librarian and the administrative staff as well as a multi-purpose auditorium now occupied by the Centre D'Accès à l'Information (CAI) and the School of Advanced Computing.

At the farthest end of the old building is a large printing and binding unit as well as a dark room for photographic and litho-offset plate processing. The western wing houses the shipping and receiving section, the typing pool, and a large technical processing room for books, periodicals and other materials. The Reserve Section is also located on this floor next to the issue counter.

15.1.3 First Floor

The first floor is an open area with reader tables along the windows and a popular browsing area. Other sections include Mauritian, Law, Reference and Bibliography. This floor also comprises the main stack and shelves for back issues of periodicals received from the Ministry of Health, the United Nations depository collection together with the publications of some of its specialised agencies like FAO, GATT, ILO, and WHO. The Canadian Government Publications, received on request depository, are fully catalogued and are inter-shelved with the main collection.

This floor also houses the audio-visual unit which provides a photocopy service to library users and the multimedia library which is presently being set up. The shelves for displaying the current issues of periodicals are located in the southern wing.

15.1.4 Second Floor and Third Floor

The second floor is used as the main reading hall and for stacking the main book collection, whereas the third floor houses bound volumes of back issues of periodicals.

15.1.5 Acquisitions Policy

The present policy of the library is to acquire, by purchase or through donations, gifts and exchange, all the necessary materials to support the teaching, research and informational needs of the five constituent Faculties of the University - Agriculture, Engineering, Law and Management, Science, Social Studies and Humanities - as well as the Centre for Distance Learning, Virtual Centre for Innovative Learning Technologies (VCILT) and the Centre for Information Technology and Systems (CITS). Significant textbooks and reference works on a wide range of subjects are also purchased.

15.1.6 Subject Areas

Subjects already represented in the library stock relate mainly to the following: accounting, agriculture, animal sciences, banking, biology, botany, business studies, chemistry, civil engineering, communication, computer science, economics, electrical engineering, food and sugar technologies, horticulture, law, local government, management, mathematics, mechanical engineering, physics, political science, public administration, pure and applied sciences, sociology, statistics and surveying.

15.1.7 Present Stock

There are some 160,000 volumes at present in the library, consisting of some 130,000 monographs and the bound volumes of periodicals. The library subscribes to some 325 periodicals while some 175 additional ones are obtained either through gift or on exchange. The audio-visual section has a small collection of records and videotapes together with a collection of some of the older Mauritian newspapers on microfilm and also some selected documents on tape, microfilm and microfiche. These will eventually be transferred to the multimedia centre to be set up in the library so that users can access information stored in other non-conventional format including electronic format like CD-ROM or optical disks.

15.1.8 Facilities

Apart from the normal borrowing and consultation facilities provided to the readers, the professional staff of the library also handle a variety of queries on a multitude of different topics. The library staff normally searches for specific information from the resources already available within the collection or guides readers to the proper sources of documentation. In case the information is not available at the university, the readers are referred to other local libraries which have the required materials.

The University library has also entered into inter-library loan agreements which allow it to borrow documents from other libraries, both local and foreign. For journal articles or research papers of moderate length not available locally but needed for research purposes, the library can order copies from abroad in any of the following formats: photocopy, microfilm or microfiche because there is a microfilm/microfiche reader in the audio-visual section of the library. Photocopies of articles from the learned journals already available at the library are provided at cost. A wide range of audio-visual facilities are also made available to the University and its members.

To facilitate information search and retrieval by both staff and users, the library has embarked on a new computerised Library Management System (LIBERO) and the cataloguing and circulation services are now fully automated.

15.1.9 Inter-Library Cooperation

The Library maintains close cooperative links with the libraries of the Mauritius Sugar Industry Research Institute (MSIRI), the Food and Agricultural Research Council (FARC), the Mauritius Institute of Education (MIE), the Mahatma Gandhi Institute (MGI), the Mauritius College of the Air (MCA), the National Library and other libraries and documentation centres in the island. Special working relationships and cooperation also exist with such international bodies as the British Library, AGRIS, CARIS and AUF.

15.1.10 Special Collection

Documents on agriculture going back to its early beginnings in Mauritius are held in the Library. It is building up its Mauritian collections which already include among others official and private publications, periodicals and most local newspapers to which the library currently subscribes. A special law collection has been set up to meet the needs of students following the LLB Course. This collection is also available for reference purposes to *bona fide* students of the Council of Legal Education.

15.1.11 Medical Sciences Library

With the launching of a degree course in Medical Science, the library is building up a core collection of medical books to meet the teaching, learning and information and study requirements of the students enrolled on this programme and their lecturers. The library also has a collection of medical

books received from the Ministry of Health and these books may also be consulted by senior staff members of the Ministry of Health, members of the medical profession and other readers on request.

15.1.12 Special Regulations

The University Library Regulations will apply to the Medical Sciences collection with the following exceptions:

- (a) Loan privileges are restricted to the students and academic staff of the Department of Health and Medical Sciences.
- (b) Medical books may, on the occasion, be placed in the Reserved Section for the use of students during special courses necessitating the use of these materials.

15.1.13 Publications of the United Nations and its Agencies

As mentioned before, the University Library has been selected as the official/ partial depository for Mauritius of documents of the United Nations and some of its specialised agencies.

With all these resources at hand, the library is thus striving to keep pace with the development needs of the country as well as acquire a small representative stock of universal literature to play its role as efficiently as possible as an information dispenser and a reference Centre.

15.1.14 Membership

The library is enjoying increasing popularity. Its members include staff and alumni of the University and such other categories of outside members as stipulated in the Library Regulations. However, the flood of requests for borrowing privileges has had to be checked as the present limited resources of the library are barely sufficient to satisfy the information needs of the academic population. It is only in exceptional cases that outsiders are permitted to borrow books from the library and other *bona fide* members of the public may also use the library but for reference consultation and reading facilities only.

15.2 LIBRARY REGULATIONS

15.2.1 Preamble

The Library will not knowingly check out material to someone using another’s ID.

A lost ID or Library card should be reported to the Library immediately. The ID number will be blocked so that it can no longer be used for borrowing and a replacement Library card will be issued against payment of the appropriate replacement fee.

(iii) ADDRESS INFORMATION

(a) Current address

It is the responsibility of a borrower to keep the Library informed of her/his current address to permit mailing of notices by the Library. A borrower who will be away from her/his address for extended periods (break periods, vacations) should either return all library materials before leaving or make arrangements to ensure that the borrowed library materials can be located and returned to the Library if recalled.

(iv) **CONFIDENTIALITY**

It is the general policy of the University of Mauritius Library not to release information about the activities of individual borrowers as well as the materials used by them in order to protect both the privacy of these individuals and their right to consult and borrow library materials without prejudice.

(v) **LOAN PERIODS AND RECALLED MATERIALS**

(a) Loan Periods

UoM academic staff and part-time lecturers have a loan period of one month. All other borrowers have a two-week loan period. Some categories of materials (items on reserve or for specific programmes) are circulated with short-term loan periods (one-hour, one-day and one-week loans).

(b) Recalled Materials

Materials on loan may be recalled from any borrower. Items needed for reserve are subject to immediate recall. Otherwise, an item charged out to a borrower is subject to recall once it has been on loan for one week.

(c) Borrower Responsibilities

When Library material is borrowed for a short-term loan period, the Library will record a date (or date and time) due. Borrowers are responsible for observing the date (or date and time) due for each item and returning the short-term loan item directly to the location from which it was borrowed. Selected material may be restricted to in-library use and may not be removed from the lending library.

Fines apply equally to all borrowers and are assessed as follows:

(a) Late Return or Non-Return of Library Materials on loan

(b) Delayed Response or Non-response to a Recall Notice

1. *Due Dates*

Borrowers are expected to observe due dates for library materials loaned to them. The due date is the date specified on the date label in the book or the date specified on the recall notice. Library materials will not be due on dates when the lending library is closed.

There is NO grace period for either long-term or short-term loans. Each item must be returned by the date (or date and time) due, and overdue charges are assessed from the expiration of the date due.

2. *Renewals*

Borrowers are permitted to renew long-term loan items provided that the item has not been recalled. A short-term loan item will be renewed only if another borrower has not requested it. Renewal of loan for items on reserve is not allowed. Various methods of renewal are available, but no telephone or mail renewals are permitted.

3. *Overdue Notices*

For an item that has not been returned or renewed by its due date, the Library will generate an overdue notice, as a courtesy reminder to the borrower, seven days after the due date. This notice will be sent to the current mailing address that the borrower maintains with the Library. A borrower's failure to receive an overdue or library fines billing notice will not result in cancellation of library charges.

4. *Library Charges*

(a) *Overdue Fines*

Long-term loans –Rs3.00 per item for each overdue day, accruing to a maximum of Rs90.00 per item.

Reserve short-term loans – Overdue fine of Rs5.00 per day (or partial day) per item for the days the Library is open, accruing to a maximum of Rs50.00 per item.

If the maximum fine is reached for an item, borrowing privileges are suspended.

(b) *Replacement Charges*

Once the maximum fine has been accrued for an item not yet returned or renewed, the borrower is subject to being billed for replacement costs of the item in addition to processing fees and the maximum overdue fine. Should an item be declared lost before the maximum fine has accrued, overdue fines, replacement and processing charges may be imposed. If an item is then returned by the borrower, the borrower's charge for replacement may be reduced or cancelled.

If a recalled item is not returned, the borrower will be billed for replacement and processing costs, as well as the maximum late fine.

(c) *Damage of Library Materials*

Borrowers who damage library materials are subject to charges which may vary according to the extent of the damage. For seriously damaged material, the Library may assess the borrower replacement charges and processing fees.

Unless on appeal, library charges must be paid promptly. Failure to do so may result in loss of borrowing privileges, the placement of holds on grades, transcripts, and enrolment.

5. *Theft/Intentional Mutilation of Library Materials*

As a deterrent to theft and intentional mutilation of library materials, and as a means to recover the cost of resulting damages, the Library will send to the University Discipline Committee

persons who willfully damage Library materials, who intentionally misplace books in the Library so as to deprive others of their use, or who willfully and without authorization take or attempt to take materials from the Library.

6. Suspension of Borrowing/Access Privileges

Borrowing privileges are suspended if the borrower:
