

BSc (Hons) PSYCHOLOGY- SH 341

1. OBJECTIVE

At the University of Mauritius, we offer you a degree that provides a thorough grounding in the theories and methods of psychology. In the first two years, you will be introduced to the main areas of Psychology: Developmental Psychology, Cognitive Psychology, Biological Bases of Behaviour and Social Psychology. In your final year, you will study more specialised topics in Psychology and will have to submit a dissertation based on an original piece of research. The latter is aimed to help you develop your research skills and apply the theories and methods learnt to specific social contexts.

The programme is designed to:

- Provide in-depth knowledge of Psychology as a science that students understand from a theoretical and applied perspective.
- Develop your analytical and critical skills
- Give a broad general education that is appreciated by employers in a number of professions requiring social analysis in a changing society, both in the public and private sector.
- be the first step to further studies at post graduate level and beyond either locally or abroad.

2. GENERAL ENTRY REQUIREMENTS

In accordance with the University General Entry Requirements for admission to undergraduate Programmes.

3. PROGRAMME REQUIREMENTS

Credits in English and Mathematics at GCE 'O' Level and Any 2 'A' Levels

6. CREDITS PER YEAR:

Minimum : 18 Credits

Maximum : 48 credits

7. ASSESSMENT

Each module can either be taught in one semester only (semester module) or throughout the two semesters (yearly module).

Each module will be assessed over 100 marks with details as follows (unless otherwise specified):

Assessment will be based on a written examination of 2 to 3-hour duration (normally a paper of 2 hour duration for modules carrying less or equal to three credits, and 3 hour paper for modules carrying six credits) and on continuous assessment done during the semester or year. The examination duration for modules assessed by 50% continuous assessment may differ from the above.

Written examinations for all modules, will be carried out at the end of the academic year except for semester modules (unless otherwise stated). Relevant information will be provided to the students prior to delivery of the modules.

The continuous assessment will count for 10- 30% of the overall percentage mark of the module, except for a Programme where the structure makes for other specific provision(s).

Continuous assessment may be based on laboratory work, seminars and/or assignments and should include at least 1 class test.

Special examinations (e.g. class tests) will be arranged at the end of semester 1 or semester 2 for exchange students who have registered only for one semester. In case of yearly modules, credits will be assigned on a pro-rata basis.

8. REPEAT AND TERMINATION OF REGISTRATION

If the CPA of a student is < 40% for an academic year, s/he will have to repeat the entire academic year, and retake modules as and when offered. However, s/he will not be required, if s/he wishes, to retake modules for which **Grade C** or above has been obtained.

Students will be allowed to repeat **only once** over the entire duration of the Programme of Studies.

Registration of a student will be terminated if

- (i) the CPA < 40% at the end of an academic year and the student has already repeated one year of study; or
- (ii) the maximum duration allowed for completion of the Programme of Studies has been exceeded.

9. MODULES OF SPECIAL NATURE

A student can take a maximum of 9 credits of Self-Study Subjects and Independent Study, subject to approval of the Department.
