Cyber Laws  
and  
Research Methodology

The MSc Network Security and Management programme is a 2-year part-time course which is offered by the ICT Department, Faculty of Information, Communication & Digital Technologies (FoICDT), University of Mauritius.

This programme has been developed in consultation with leading players in the ICT sector and is tailor-made to the current needs of the industry. Graduates from this programme will have the necessary skills to develop and perform in a rapidly changing networking and security environment.

Applicants for this programme should possess an undergraduate degree, with at least a second class or equivalent, in Computer Science, ICT or other related areas. Alternative qualifications and/or mature candidates may also be considered, subject to University of Mauritius regulations.

The annual fees is Rs75,800.

For additional information on course fees, please visit:

<http://www.uom.ac.mu/images/FILES/Admissions/2019/Postgraduate/FeesPostgrad.pdf>

Deadline for submission of applications is 31st May 2019.

Applications must be submitted online at: <http://apply.uom.ac.mu/application>

The University reserves the right not to run this programme should there be an insufficient number of students registered for same.

For more information, please consult the University of Mauritius website: [www.uom.ac.mu](http://www.uom.ac.mu) and
