

**VACANCY**

Applications are invited from suitably qualified candidates for the post of **Research Assistant** for a **task-based assignment** to work on the MRIC-funded research project under the Innovation Boost Grant entitled *"Enhancing University-Industry Collaboration for Sustainability through Multimedia Creation and Innovative Service Learning"* for a contractual period of three (3) months.

**Qualifications Required:**

- A Degree in any field with a digital, communication, multimedia, or technology-related component.

**Profile**

Candidates should demonstrate:

- Good research, communication, and digital literacy skills.
- Interest in multimedia creation, digital storytelling, or social media content production.
- Familiarity with digital office suites and online collaboration tools.
- Interest in Generative AI tools and emerging technologies (prior experience is an advantage but not mandatory).
- Strong organisational and time-management skills.
- Ability to work independently on clearly defined tasks and deliverables.

**Task 1: University-Industry Collaboration and Engagement**

- Assist in establishing university–industry collaboration networks in the region of Ebène.
- Assist in the organisation of workshops, webinars, masterclasses, and dissemination activities.
- Provide logistical and administrative support for project activities.

**Task 2: Multimedia Content Development and Communication**

- Support the creation of AI-assisted multimedia content related to sustainability and SDGs (training will be provided).
- Develop visual user guides and digital communication materials for AI tools and workshops.
- Assist in creative digital content production and dissemination.

**Task 3: Research and Reporting Support**

- Contribute to literature reviews, synthesis of findings, project reports, and presentation materials.
- Assist in documenting project outcomes and dissemination materials.
- Perform other related duties assigned by the Principal Investigator.

**The selected candidate will gain practical exposure to:**

- Generative AI-assisted multimedia workflows
- Sustainability communication and SDG advocacy
- University–industry collaboration initiatives
- Creative digital content production and dissemination
- Innovative service-learning environments

**Remuneration**

For the task-based assignment (including Tasks 1, 2 and 3), an all-inclusive allowance of Rs 60,000/- will be paid **upon satisfactory completion**.

**Duration of Contract**

Appointment will be offered for a contractual period of three (3) months. The tentative starting date will be Monday 29 June 2026.

**Mode of Application**

Letter of application together with a detailed *Curriculum Vitae* and photocopies of qualifications, birth certificate, marriage certificate (if applicable), testimonials and equivalence of qualifications (where applicable) should be sent **by email** to the Principal Investigator, Mrs Sandhya GUNNESS (sandhya.gunness@uom.ac.mu) and copied to the Office-in-Charge, CILL (dcill@uom.ac.mu) by **Friday 12 June 2026 at latest**.

The email subject should read **“Research Assistant for the Project “Enhancing University-Industry Collaboration for Sustainability through Multimedia Creation and Innovative Service Learning”**. Incomplete applications or applications received after the closing date will **not** be considered.

The University reserves the right:

- To call for interview only the most appropriate and best qualified applicants.
- Not to make any appointment as a result of this advertisement.
- To conduct a written/aptitude test as and when required.

**28 May 2026**

**Prof M I Santally  
Office-in-Charge, CILL**
