

Mazars is hiring IT Security Consultants!

Mazars, an integral player in auditing, accounting, tax and advisory services in Mauritius. Mazars Mauritius is a licensed firm by the Financial Reporting Council (FRC), serving clients of all sizes, from SMEs to mid-caps and global players, at every stage of their development. Our Senior Management team comprises qualified chartered and certified accountants combining over 30 years of local and overseas experience and is supported by a workforce of qualified accountants and partly qualified accountants.

Mazars Mauritius is on the lookout for IT Security Consultants! Embarking your career journey with us means:

- Fulfil your cybersecurity interest from hands-on experience
- Receive learning & training supports to develop transferable skills for success.
- Pave your own career path with passion.

As an IT Security Consultant, you will be part of the Technology and Security team in providing advisory and risk assessment services to external clients, including network vulnerability assessment, web application security assessment, penetration testing, threat modelling, security architecture and design review, configuration and compliance review.

Our Mauritius office benefits from the vast resources of the global Mazars organization in areas such as technical support, risk management, and on-going training.

Situated at 4th Floor, Unicorn Centre, Frère Félix de Valois Street, Port Louis.

Qualifications and Experience:

- Graduate in Computer Science / IS / Cyber Security or relevant.
- Prior working experience in IT Security is a plus
- CEH, GPEN, GWAPT, OSCP, and/or applicable professional certifications is an advantage

Skills and Qualities

- Passion for cybersecurity development and technical security assessments.
- Strong interpersonal skills and ability to adapt to changing circumstances and environment well.
- Strong problem solving and analytical skills.
- Proactive, innovative and a team player.
- Strong understanding of business and IT processes, and security related risk and controls with ability to recommend Opportunities for controls improvement
