

PRODESIGN

SUSTAINABILITY & MEP ENGINEERS

EMBRACE THE FUTURE OF CONSTRUCTION: JOIN US AS AN AI SPECIALIST

Prodesign is a consulting engineering firm that has consistently embraced new technology and is well-versed in the benefits of green buildings. Over the last 26 years, the company has worked with both public and private sector clients, and is now recognised as the top local provider of Mechanical, Electrical and Public health (MEP) engineering as well as green building design.

Situated at First Floor Building No. 2 Valentina Industrial Estate, Phoenix

Duties are as follows:

From harnessing the power of Building Information Modelling (BIM) to integrating cutting-edge robotics and artificial intelligence (AI), technology is revolutionizing the landscape of construction projects, redefining how we plan, execute, and manage them.

Our dynamic team is seeking an AI Specialist who is passionate about shaping the future of the AEC industry through advanced technology. This role encompasses the development of APIs to enhance BIM and the exploration of generative AI software options for research and implementation.

Key Qualifications:

- Bachelor's degree in Emerging Technologies, Information Systems, or a related field.

If you are driven by innovation and seek to pioneer the application of AI in the AEC sector, we invite you to be a part of our team and contribute to the ongoing technological transformation of construction processes.

Duration: Full time

Experience: (Optional) Fresh Graduates

Remuneration: Rs 27 000

Working Days/ Time: Monday to Friday- 8:30 to 4:45pm
