Job Profile- 3D Fashion Designer

Are you passionate about the intersection of fashion and technology? Do you have a keen eye for detail and a flair for creativity? We are looking for a talented 3D Fashion Designer to join our innovative team!

DUTIES AND RESPONSIBILITIES

- Develop precise 3D models of garments, including avatar creation, fabric texture and color application, and detailed garment construction.
- Fit 3D garments on avatars to achieve the desired look and functionality.
- Finalize 3D illustrations into polished, presentable versions for client approval.
- Conduct research on current fashion trends, anticipate customer preferences, and incorporate these insights into creative and trend-following designs.
- Present finalized 3D models and collections to clients and stakeholders, incorporating feedback to refine designs.

QUALIFICATIONS & EXPERIENCE

- Degree in Textile and Fashion Design/ or related subject
- Proven experience as a 3D Fashion Designer or similar role
- Proficiency in 3D modeling software such as CLO 3D, Browzwear, or similar.
- Strong understanding of garment construction, fabric properties, and fashion design principles

SKILLS

- Creative mindset with a keen eye for detail
- Excellent communication and presentation skills
- Ability to work independently and as part of a collaborative team.
- Strong organizational skills
- Ability to manage multiple projects simultaneously.

If you're excited about this opportunity and ready to bring your expertise to our team, we'd love to hear from you! Please send your resume and cover letter to hr.teams@wknits.com by latest 07 June 2024.
