Become an ALT in Japan

Experience the culture, landscape, and more!

ALTs are Assistant Language Teachers that work in public elementary, junior high, and senior high schools across Japan. ALTs come from a wide variety of backgrounds, some with teaching experience, and others just looking to make a difference in the lives of students. While some Japanese language skill is recommended, it is not required.

Take your first step into the wonderful world of education. We look forward to speaking with you!
