

## Career Opportunity

**CDL Knits Ltd**, part of the textile cluster of **CIEL Group**, is a fully integrated knitting, dyeing and finishing mill which produces textile for the fine knits garment making industry.

## Mechatronics Engineer

We are searching for an innovative, deadline-driven mechatronics engineer to join our team. The selected candidate will be reporting to the Maintenance Manager.

### What you will be doing:

- Design, build, enhance and test machinery and automated systems
- Conducting research, documenting findings, and presenting reports at meetings
- Identifying areas of weakness in the production line or finished products and making recommendations for improvement
- Attending workshops, training sessions, and conferences to network with others and stay on top of field advancements
- Managing and guiding a team of operators

### What are we looking for?

- Degree holder in Mechatronics/Mechanical Engineering or equivalent
- Experience in the Textile industry will be an advantage
- Self-starter with a passion for engineering
- Excellent technical and problem solving skills
- Able to work under pressure with tight deadlines
- Strong mathematical, analytical, and creative thinking skills
- Ability to work in a team and alone

**Location:** Forest Side, Mauritius.
