Job Title:

- Financial / Investment Analyst.
- Undergraduates and graduates completing their studies at end of 2025.

Redwood Finance:

- Niche player in the asset management and brokerage business, offering unparalleled global markets experience.
- The analyst will receive substantial exposure across a broad range of investment areas globally including equities, fixed income, commodities and alternatives.
- As a member of the Redwood Finance team, you will work on broad market themes as well as specific client mandates for asset management and brokerage execution.
- Looking for both undergraduate / graduate entry level job, primarily those graduating end of 2025, but also those with few months of work experience will be considered.
- Substantial training and support provided for the first few months on the job.

Duties and Tasks:

- Understand global financial markets for key themes and outlook at the macro, sector and company specific levels.
- Analyse company financials, and formulate a view on growth and profitability prospects.
- Understand company valuation techniques.
- Analyse financial markets and trading activity to understand market drivers.
- Prepare regular market updates including market statistics and company updated financials.
- Solid grasp of Excel, PowerPoint and Word applications, which can also be learned on the job assuming an existing basic knowledge.
- Training will be provided on-the-job however basic understanding of finance and accounting will be important.
- Suitable for highly motivated and ambitious graduates seeking to understand global financial markets and investment banking.
- Understand company financials that help guide the investment decision.
- Follow specific industries to learn the key drivers and trends that influence companies' and investors' decisions.

Technical and Academic Requirements:

- Demonstrated academic achievement and solid interest in the financial sector.
- Background in Finance, Banking, Accounting, Economics, Mathematics, Statistics, or quantitative areas.
- High grades and analytical skill are a must to succeed in this role:

- (i). Undergraduate First Class Honors ideally or very good 2:1.
- (ii). HSC results: Ideally A-A-A, or minimum A-B-B.
- Seeking to pursue the CFA as next steps post undergraduate / graduate studies.
- Excellent written and verbal communication and problem-solving skills.
- Hardworking with the ability to work independently and as part of a team.
- Excellent PC skills with proficient knowledge of Excel, Word and PowerPoint.

Compensation:

- Very competitive for new graduates or recent graduates, plus end of year bonus.
- Meaningful opportunity to build a network of colleagues both within the Redwood network and outside that will strengthen your career throughout your professional life.
- Keen and willing to learn about global financial markets and develop investment and corporate finance skills.
