### MAIN DUTIES & RESPONSIBILITIES:

- Analyse datasets to identify trends, patterns, and opportunities that support decision-making
- Assist in creating clear and useful reports or dashboards using tools like Excel and Power BI
- Collaborate with team members and stakeholders to understand data needs and deliver insights
- Help maintain data accuracy by following good data practices
- Stay open to learning new tools and techniques in data analysis

### QUALITIES:

- Degree in Statistics, Mathematics, Computer Science, Information Systems, Data Science, Actuarial Science or a related field.
- At least 1 year of experience in a data analyst or similar role and/or fresh graduates are welcomed to apply
- A problem-solver who enjoys exploring data to find insights
- Some experience with tools like Excel, SQL, or Power BI (or a willingness to learn)
- An interest in growing your skills in data and analytics
- A basic understanding of how data is stored and processed (e.g. databases, data flows)
- Awareness of data quality and privacy principles, even if you're still learning the ropes

### What We Offer

- A dynamic and modern work environment.
- A kind and enthusiastic team.
- Opportunities for training and professional development.

Situated at The Strand, Lake Side District, Beau Plan
