CONSULTING MECHANICAL & ELECTRICAL ENGINEERS

MORCELLEMENT PARK HOTEL, ST CLEMENT STREET, CUREPIPE.
Tel: (230) 673 0134 Email: admin@kyaengineers.com

Position: Mechatronics Engineer

About Us:

KYA Engineers Ltd is a reputable engineering firm specialising in delivering high-quality mechanical and electrical engineering services. We are committed to innovation and excellence in all our projects, ensuring the best outcomes for our clients.

Job Description:

We are seeking a skilled and motivated Mechatronics Engineer to join our team. The ideal candidate will have a strong background in mechatronic systems design and implementation. You will work closely with our engineering team to develop and execute projects that meet client specifications and industry standards.

Responsibilities:

- Design and develop mechanical, electrical and electronic systems and components.
- Perform testing and validation of mechanical, electrical and electronic systems.
- Collaborate with other engineers and project managers to ensure seamless project execution.
- Conduct analysis and simulations to optimise designs.
- Prepare technical reports and documentation.
- Ensure compliance with industry standards and safety regulations.

Requirements:

- Bachelor's degree in Mechatronics, Mechanical Engineering, or related field.
- Proficiency in CAD software and simulation tools.
- Strong problem-solving skills and attention to detail.
- Excellent communication and teamwork skills.

Benefits:

- Competitive salary and benefits package.
- Opportunities for professional growth and development.
- Work on diverse and challenging projects.
