Junior MEP Site Engineer

Company: TRANSINVEST CONSTRUCTION LTD

Location: Project Based location / Head Office

Employment Type: Determinate Duration (6 months – 12 months)

1. About TRANSINVEST

TRANSINVEST is a well-established company operating in the construction and engineering sector, delivering complex and high-quality projects. Our expertise spans across large-scale infrastructure and building developments. As part of our continued growth, we are looking to recruit a **Junior MEP Site Engineer** to support our project teams on site and during design coordination.

2. Job Description

The Junior MEP Site Engineer will assist the MEP Project Manager and site teams in coordinating Mechanical, Electrical, and Plumbing (MEP) works, ensuring they are executed in compliance with project drawings, specifications, and schedules.

3. Key Responsibilities

- Assist in the coordination of Mechanical, Electrical, and Plumbing (MEP) works on construction projects
- Support the preparation, review, and coordination of MEP drawings and shop drawings
- Coordinate with consultants, subcontractors, and internal teams to resolve technical issues
- Monitor MEP installation progress and report on site activities
- Assist in detecting clashes between MEP systems and structural/architectural elements
- Ensure MEP works comply with project requirements, quality standards, and safety rules
- Assist in testing, commissioning, and handover documentation

4. Requirements

- Diploma or Degree in Mechanical Engineering, Electrical Engineer, Mechatronics Engineering or Building Services
- 0–2 years of experience in MEP coordination/Engineer or construction site activities
- Fresh graduates with strong motivation are encouraged to apply
- Ability to read and understand MEP drawings
- Knowledge of AutoCAD; BIM experience is an advantage
- Good communication, coordination, and teamwork skills
- Willingness to work on construction sites and learn from senior engineers

5. What TRANSINVEST Offers

- Exposure to major construction and infrastructure projects
- Structured learning and on-the-job training
- Career growth opportunities within the company
- Competitive remuneration based on qualifications and experience

6. How to Apply

Interested candidates are invited to submit their CV and cover letter to ‘darvesh.beegun@transinvest.mu’, mentioning “**Junior MEP Site Engineer – TRANSINVEST CONSTRUCTION LTD**” in the subject line.

Deadline of Application: 01 May 2026
