

# WE ARE HIRING!

## Web and Digital Assistant

We are looking for a motivated university student to join our team on a part-time/temporary basis and support our digital platforms and online presence. This role is ideal for a student studying IT, Computer Science, Web Development, Digital Media, or a related field, who is eager to gain hands-on experience in a professional environment.

### Key Responsibilities

- Support front-end development on websites using WordPress and Drupal
- Assist with back-end updates, patches, and basic maintenance
- Support SEO optimisation initiatives
- Contribute to UI/UX improvements to enhance user experience
- Assist in updating website content and layouts
- Work closely with internal teams on digital and communication tasks

### Profile Required

- Currently enrolled in a university degree programme
- Basic to intermediate knowledge of WordPress and/or Drupal
- Familiarity with HTML, CSS, and basic JavaScript is an advantage
- Interest in SEO and UI/UX design
- Willingness to learn and take initiative
- Able to work part-time alongside studies

Interested Candidates are kindly requested to send their CV on
