

## BSc (Hons) Management (Minor: Finance) - LM432

### 1. Objectives

The programme is intended for persons interested to pursue a managerial career and to have a good background in finance. The main objective is to equip participants with the necessary concepts, tools and techniques of management and finance. Moreover, it will provide a stepping stone to students who are interested in enrolling on professionally recognised qualifications such as the Chartered Financial Analyst (CFA) programme or the ICSA (International Chartered Secretaries Association). Students will also be exposed to practical training.

### 2. General Entry Requirements

In accordance with General Entry Requirements for admission to the University for Undergraduate Degrees.

### 3. Programme Requirement

Pass in Mathematics at "A" Level.

### 4. Programme Duration

	<b>Normal (Years)</b>	<b>Maximum (Years)</b>
Degree:	3½ -year sandwich course (7 semesters)	5½ -year sandwich course (11 semesters)

### 5. Credits per Year

Minimum 18 Credits, Maximum 48 Credits subject to Section 4.

### 6. Minimum Credits Required for Award of Degree: 108 (including 6 credits for practicums).

Breakdown as follows:

Degree	Core taught modules	Dissertation	Elective modules	Practicums	Total
Credits	90	6	6	6	108

### 7. Assessment

Each module will carry 100 marks and will be assessed as follows:

Assessment will be based on a written examination of 2-hour (for a semester module) or 3-hour (for a yearly module) duration as specified and continuous assessment carrying a range of 20% to 30% of total marks except for Module Research Methodology in Management. Continuous assessment will be based on two (2) assignments and should include at least one class test per module per year.

For a student to pass a module, an overall total of 40% for combined continuous assessment and written examination components would be required without minimum thresholds within the individual continuous assessment and written examination.

Most modules in the structure are **yearly modules** which are taught over a period of two semesters and examined at the end of the second semester only. There are continuous assessments over the period of two semesters and the written examination will be of a duration of 3 hours for a yearly module of 6 credits.

Semester modules in the structure are run over 15 weeks and carry 3 credits. The assessment of such modules will consist of continuous assessment and an examination of a duration of 2 hrs at the end of the semester in which the module is run.

Written Examination and Continuous Assessment would each carry a weighting of 50% each for the **Module Research Methodology in Management (MGT 2117)**.

## 8. Practicums

The 3½-year degree programme includes a minimum of 6 months gaining practical experience outside the university at the end of Year 2. It will normally involve working as a management trainee in industry. The advantages of taking such a “sandwich” course are that it will improve students’ maturity and skills base and will give the opportunity to students to “test” in real-life situations what they have learnt in theory. It will also enhance students’ employability skills.

Practicums will be monitored by the Department. Two reports must be produced at the end of the training period: one by the student and one by the supervisor in the workplace. Practicums of at least 6 months’ duration, accounting for 6 credits, must be satisfactorily completed for the award of the degree. Such requirement may be waived for part-time students currently in employment.

## 9. List of Modules

### CORE MODULES

Code	Module Name	Hrs/Wk L+P	Credits
DFA 1020Y(1)	Accounting and Financial Analysis	D.E.O.L	6
DFA 1002Y(1)	Financial Theory and Practice	3+0	6
LAWS 1007Y(1)	Foundations of Mauritian Law	D.E.O.L	6
